

# S.E.A.D.

Since 1982, Reinhardt's Academic Support Office has provided additional support to students with Specific Learning Disabilities and/or Attention Deficit Disorder. This highly successful program supports approximately 120 students a year, and it is staffed by four full time educators. Among the various support services rendered by the ASO is S.E.A.D.

## Strategic Education for Students with Autism Spectrum Disorders

By participating in the S.E.A.D. program, students will:

- » Have a smooth transition into the college atmosphere
- » Increase awareness of strategies and skills for application in the social college atmosphere
- » Make connections with students and staff to maintain support throughout their college experience
- » Have the self determination needed to advocate for themselves on campus

*S.E.A.D. is supportive in nature and is voluntary for students with Aspergers/Autism.*
